

SEISMOLOGICAL BULLETIN.

The data herewith give the results from a network of seismographs intended particularly for the study of earthquakes occurring in or near South Africa. This bulletin is, however, prepared regularly and will be sent to interested organisations on request.

| <u>Stations</u> | <u>Pretoria (Pta)</u> | <u>Grahamstown (G)</u> | <u>Pietermaritzburg (Pmb)</u> | <u>Kimberley (K)</u> |
|------------------------|------------------------------------|---|-----------------------------------|---|
| Lat.: | 25°45.2'S | 33°18.6'S. | 29°37.2'S. | 28°45.1'S. |
| Long.: | 28°11.4'E. | 26°34.5'E. | 30°23.8'E. | 24°46.8'E. |
| Lithologic foundation: | Weathered Shale (Pretoria series). | Dwyka shale. | Soft Ecca shale. | Dolerite boulders embedded in decayed dolerite. |
| Height: | 1350 m. | 558 m. | 656 m. | 1321 m. |
| Instrument: | Benioff S.P. vertical. | Benioff S.P. vertical with short & long period recorders. | Benioff S.P. vertical. | Benioff S.P. vertical. |
| Seismo. Officer: | The Director. | Dr. M.E. Szendrei. | The Professor of Physics. | Rev. Br. T.N. Purcell. |
| Observer: | Mr. T.E. Dicker. | Dr. M.E. Szendrei. | Mr. W.L. Mouton. | Rev. Br. H.F. McGreevy. |
| Institution: | Geological Survey Office. | Rhodes University. | Natal University. | Christian Brothers College. |

Notes: "Earth tremors" originating in the mining district of the Witwatersrand are recorded several times daily by the Pretoria station, and less frequently by the others. These are not dealt with in this bulletin.

Data are occasionally reported herein by courtesy of the Union Observatory, Johannesburg, which operates a 200 kg. Wiechert Horizontal seismograph. This station is called J, and is at 26° 10.9'S., 28° 04.5' E., height 1806 metres.

All times given are G.M.T.

The supervision of this network and bulletin is at present in the hands of the undersigned, to whom all inquiries should be addressed.

Address:
 Geophysical Research Institute,
 University of the Witwatersrand,
 Johannesburg, South Africa.

P.G. Gane
 P.G. Gane.
Seismological Officer.

JANUARY, 1954.
