EARTHQUAKE INTENSITY SCALE

Criteria of the Modified Mercalli Scale which were used to rate the intensities of the earthquakes registered were:

Intensity

- II Felt by a few people only. Duration or direction not appreciable.
- III Duration or direction appreciable.
- IV Rattling of doors and windows; swinging of suspended objects.
- V Disturbance of movable objects; plaster cracked.
- VI Overthrow of movable objects; cracking of chimneys and other brickwork.
- VII Fall of some chimneys; some damage to buildings.

Epicenters located in the following list are plotted on the accompanying map. A number and a letter are given beside each epicenter. The number is that assigned to the earthquake in the list. Only those earthquakes are given numbers for which epicenters were located. The letter represents the excellence with which the epicenter has been located, a indicating excellent, b good, c fair, d poor.

EARTHQUAKES IN NORTHERN CALIFORNIA

(All intensities given on Modified Mercalli Scale)

1941 -- PACIFIC STANDARD TIME

- March 31, 11h 07m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco, and Fresno; III at Sunol, epicenter about 3 miles southwest of Pleasanton. See map, epicenter 1a.
- March 31, 11h 42m, p.m. Recorded at Berkeley and Mount Hamilton and weakly at Palo Alto; not reported felt, probably an aftershock of previous quake.
- April 1, 01h 08m, a.m. Recorded at Berkeley and Mount Hamilton; another aftershock.
- April 1, 03h 35m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; felt at Sunol, another shock from epicenter 1a.
- April 5, 04h 41m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; IV near Markleville, epicenter probably in Nevada about 20 miles northeast of Markleville.
- April 5, 02h 55m p.m. Recorded at Mount Hamilton only; not reported felt, focus about 4 miles from Lick Observatory.
- April 5, 04h 11m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 7 miles from Lick Observatory.
- April 5, 08h 00m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 9 miles from Lick Observatory.
- April 13, 10h 15m, a.m. Recorded at Palo Alto only; not reported felt, focus about 12 miles from Palo Alto station.
- April 14, 08h 17m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; VI at Aptos, Capitola, Santa Cruz, Soquel; V at San Francisco, Saratoga, Watsonville; IV at Alma, Almaden, Ben Lomond, Big Sur, Boulder Creek, Carmel, Colma, Felton, Gilroy, Hollister, Holy City, Laurel, Los Gatos, Madrone, Moss Beach, Olympia, San Martin, Spreckels; I - III at Brookdale, Coyote, Hayward, Monterey, Pacific Grove, Salinas, San Bruno, San Juan Bautista, Seaside, Sunnyvale; epicenter halfway between Santa Cruz and Wrights. See map, epicenter 2b.
- April 14, 12h 56m, p.m. Recorded at Palo Alto only; not reported felt, focus about 8 miles from Palo Alto station.
- April 19, 11h 00m, a.m. Recorded at Palo Alto only; not reported felt, focus about 15 miles from Palo Alto station.
- April 20, 01h 54m, a.m. Recorded at Ferndale only; felt in Ferndale and Petrolia, epicenter about 30 miles from Ferndale.
- April 23, 03h 57m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 15 miles from Lick Observatory.

1941 -- P. S. T.

- April 24, 11h 28m, a.m. Recorded at Palo Alto only; not reported felt, focus about 15 miles from Palo Alto station.
- April 25, 08h 37m, a.m. Recorded at Palo Alto only; not reported felt, focus about 12 miles from Palo Alto station.
- April 27, 09h 06m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, epicenter about halfway between Antioch and Brentwood. See map, epicenter 3b.
- April 27, 12h 51m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, epicenter very near Colma. See map, epicenter 4b.
- April 28, 12h 27m, p.m. Recorded at Palo Alto only; not reported felt, focus about 5 miles from Palo Alto station.
- April 29, 05h 40m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 6 miles from Lick Observatory.
- May 1, 05h 29m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno (Mineral record failed); IV at Caribou, De Sabla, and Stirling City; epicenter near Butte-Plumas County line west of Quincy.
- May 5, 07h 12m, a.m. Recorded at Palo Alto only; not reported felt, focus about 7 miles from Palo Alto station.
- May 9, 11h 42m, a.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, epicenter about 5 miles west of Lick Observatory. See map, epicenter 5a. Depth of focus about 8 miles.
- May 10, 10h 01m, a.m. Recorded at Palo Alto only; not reported felt, focus about 6 miles from Palo Alto station.
- May 10, 11h 43m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 10 miles from Lick Observatory.
- May 12, 03h 49m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 8 miles from Lick Observatory.
- May 13, 02h 11m, a.m. Recorded at Ferndale only; felt slightly at Cape Mendocino, epicenter about 30 miles from Ferndale.
- May 13, 08h 02m, a.m. Recorded at all stations including Mineral at which the time of P was 08h 02m 41s, P.S.T. IV at Blue Lake, Carlotta, Ettersburg, Ferndale, Fort Bragg, Loleta, Rio Dell, Rockport, San Francisco, Santa Cruz, Scotia, Trinidad, Upper Mattole, Wildwood, Willits; III at Shively and Ukiah; felt also at Arcata, Ben Lomond, Bolinas, Eureka, Petrolia, Redwood City and at Defoe Bay and Knappa in Oregon. Epicenter at 40°3 N, 126°4 W, off coast of northern California.

1941 -- P. S. T.

- May 13, 12h 33m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, no doubt an aftershock of quake at 08h 02m, a.m.
- May 13, 02h 01m, p.m. Recorded at Palo Alto only; not reported felt; focus about 10 miles from Palo Alto station.
- May 13, 08h 10m, p.m. Recorded at Ferndale only; not reported felt, focus about 20 miles from Ferndale station.
- May 14, 10h 10m, a.m. Recorded at Palo Alto only; not reported felt, focus about 10 miles from Palo Alto station.
- May 14, 05h 00m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 8 miles from Lick Observatory.
- May 14, 05h 29m, p.m. Recorded at Fresno and weakly at Mount Hamilton and Palo Alto; IV at Coalinga, epicenter probably about 20 miles north of Coalinga.
- May 14, 10h 00m, p.m. Recorded at Fresno, Mount Hamilton and weakly at Palo Alto; IV at Coalinga, epicenter probably about 15 miles east of Coalinga. The records are not very good for these two shocks and it may well be that they came from the same source.
- May 15, 07h 47m, a.m. Recorded at Mount Hamilton only; not reported felt, epicenter about 35 miles from Lick Observatory, no doubt southerly.
- May 15, 08h 16m, a.m. Recorded at Mount Hamilton only; not reported felt, epicenter about 45 miles from Lick Observatory, no doubt southerly.
- May 15, 06h 37m, p.m. Recorded at all stations; not reported felt, aftershock of earthquake at 08h 02m, a.m. May 13. There were probably other aftershocks on this day -- see readings.
- May 16, 10h 43m, a.m. Recorded at Ferndale only; not reported felt, focus about 30 miles from Ferndale station.
- May 17, 06h 20m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 10 miles from Lick Observatory.
- May 22, 05h 53m, p.m. Recorded at Palo Alto only; not reported felt, focus about 14 miles from Palo Alto station.
- May 23, 06h 34m, a.m. Recorded at Palo Alto only; not reported felt, focus about 5 miles from Palo Alto station.
- May 24, 06h 13m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 10 miles from Lick Observatory.
- May 24, 04h 25m, p.m. Recorded at Palo Alto only; not reported felt, focus probably about 20 miles from Palo Alto station.

1941 -- P. S. T.

- May 24, 08h 01m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 10 miles from Lick Observatory.
- May 26, 07h 54m, a.m. Recorded at Mount Hamilton and very weakly at Palo Alto; not reported felt, focus about 7 miles from Lick Observatory.
- May 27, 05h 58m, p.m. Recorded at Mount Hamilton only; felt in San Benito, epicenter near San Benito.
- May 27, 10h 24m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; VI at San Martin; V at Los Gatos, Manor, San Carlos; IV at Almaden, Aptos, Ben Lomond, Berkeley, Bolinas, Boulder Creek, Burlingame, Campbell, Corte Madera, Davenport, El Granada, Gilroy, Halfmoon Bay, Kentfield, Los Altos, Madrone, Mill Valley, Milpetas, Morgan Hill, Newark, Niles, Olympia, Petaluma, Redwood City, Ross, San Francisco, San Jose, San Mateo, Santa Cruz, Sausalito, Sunnyvale; I - III at Alameda, Coyote, Laurel, Montara, Moraga, Oakley, Pescadero, Pleasanton, San Gregorio, San Juan, Tiburon; epicenter about 7 miles west-southwest of San Martin. See map, epicenter 6b.
- May 28, 05h 05m, p.m. Recorded at Berkeley and weakly at Mount Hamilton and San Francisco; not reported felt, epicenter probably in San Pablo Bay or near it.
- May 29, 05h 54m, a.m. Recorded at Berkeley and weakly at Mount Hamilton; not reported felt, epicenter perhaps near Brentwood.
- May 29, 06h 20m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 15 miles from Lick Observatory.
- May 29, 07h 01m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 5 miles from Lick Observatory.
- May 30, 05h 03m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; epicenter very near Lick Observatory, depth about 6 miles. See map, epicenter 7a.
- May 31, 03h 19m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 22 miles from Lick Observatory, no doubt southerly.
- June 2, 03h 40m, p.m. Recorded at Palo Alto only; not reported felt, focus about 10 miles from Palo Alto station.
- June 8, 05h 21m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 8 miles from Lick Observatory.
- June 9, 09h 31m, a.m. Recorded at Palo Alto only; not reported felt, focus about 8 miles from Palo Alto station.
- June 12, 03h 49m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; not reported felt, epicenter about 6 miles south-east of Wrights. See map, epicenter 8c. (The rating c is given because P-0 at Palo Alto fails to check by 2 seconds although the check is excellent at other stations.)

1941 -- P. S. T.

- June 13, 07h 53m, a.m. Recorded at Palo Alto only; not reported felt, focus about 15 miles from Palo Alto station.
- June 13, 04h 43m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto, San Francisco and Fresno; not reported felt, epicenter about 4 miles south-east of Gilroy. See map, epicenter 9b.
- June 14, 09h 08m, a.m. Recorded weakly at Berkeley and Palo Alto (Mount Hamilton records not changed this day); IV at Santa Cruz, epicenter probably to the east of Santa Cruz.
- June 18, 04h 02m, p.m. Recorded at Palo Alto only; not reported felt, focus about 7 miles from Palo Alto station.
- June 20, 02h 35m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 9 miles from Lick Observatory.
- June 23, 06h 53m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, epicenter near Ryde, about 20 miles northeast of Antioch. See map, epicenter 10b.
- June 24, 12h 32m, p.m. Recorded at Mount Hamilton only; not reported felt, focus about 7 miles from Lick Observatory.
- June 25, 10h 01m, a.m. Recorded at Palo Alto only; not reported felt, focus about 5 miles from Palo Alto station.
- June 26, 01h 16m, p.m. Recorded at Palo Alto only; not reported felt, focus about 5 miles from Palo Alto station.
- June 26, 06h 16m, p.m. Recorded at Berkeley, Mount Hamilton, Palo Alto and San Francisco; not reported felt, epicenter very near Wrights. See map, epicenter 11b.
- June 27, 03h 50m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 15 miles from Lick Observatory.
- June 29, 10h 06m, a.m. Recorded at Mount Hamilton only; not reported felt, focus about 10 miles from Lick Observatory.
- June 29, 11h 00m, a.m. Recorded at Berkeley only; not reported felt, focus about 7 miles from University Campus.

THE REGISTRATION OF EARTHQUAKES

SYMBOLS AND NOTATIONS EMPLOYED

International
Seismological
Centre1. Character of the Earthquake--

I. Perceptible. II. Moderately Strong. III. Strong

d (terrae motus domesticus)	Local shock (origin less than 100 kilometers distant),
v (terrae motus vicinus)	Near shock (origin from 100 to 1,000 kilometers distant).
r (terrae motus remotus)	Distant shock (origin from 1,000 to 5,000 kilometers distant).
u (terrae motus ultimus)	Very distant shock or teleseism (origin more than 5,000 kilometers distant).

2. Phases of the Seismogram--

P (undae primae)	Normal first phase, or first preliminary tremors (longitudinal).
P'	First preliminary tremors which have penetrated the core of the earth.
PR _n	Waves n times reflected at the earth's surface.
S (undae secundae)	Second phase, or second preliminary tremors (transverse).
SR _n	Waves n times reflected at the earth's surface.
PS	Waves changed from longitudinal to transverse oscillation or vice versa through reflection at the earth's surface.
PPS	Waves twice reflected at the earth's surface, having been longitudinal on two branches of the path and transverse on one branch.

In general a bar over two letters denoting types of waves indicates refraction. The subscript _c denotes the boundary at about 2900 km. depth between the core and the middle shell which surrounds it. Thus:

$\overline{S_c P_c S}$	Waves which have penetrated the core, having been transverse before entering and after leaving the core, and longitudinal within the core.
$\overline{P_c P_c} \overline{P_c P}$	Waves refracted at the core boundary into the core, reflected once at this boundary while within the core and again refracted out of the core, having remained longitudinal on all branches of the path.
L (undae longae)	Long waves of surface phase preceding M.
M (undae maximae)	Shorter and more regular waves of large amplitude in the surface phase.
M _n	Greatest motion in the surface phase.
C (coda)	Tail or end portion.
F (finis)	End of discernible movement.

For local earthquakes a special notation is used:

\overline{P}	The longitudinal wave which has traveled its whole path in the surface layer or crust of the earth.
\overline{S}	The transverse wave which has traveled its whole path in the surface layer of the earth.
P*	The longitudinal wave which has traveled the horizontal portion of its path in the intermediate layer.
S*	The corresponding transverse wave.

3. Nature of the Motion--

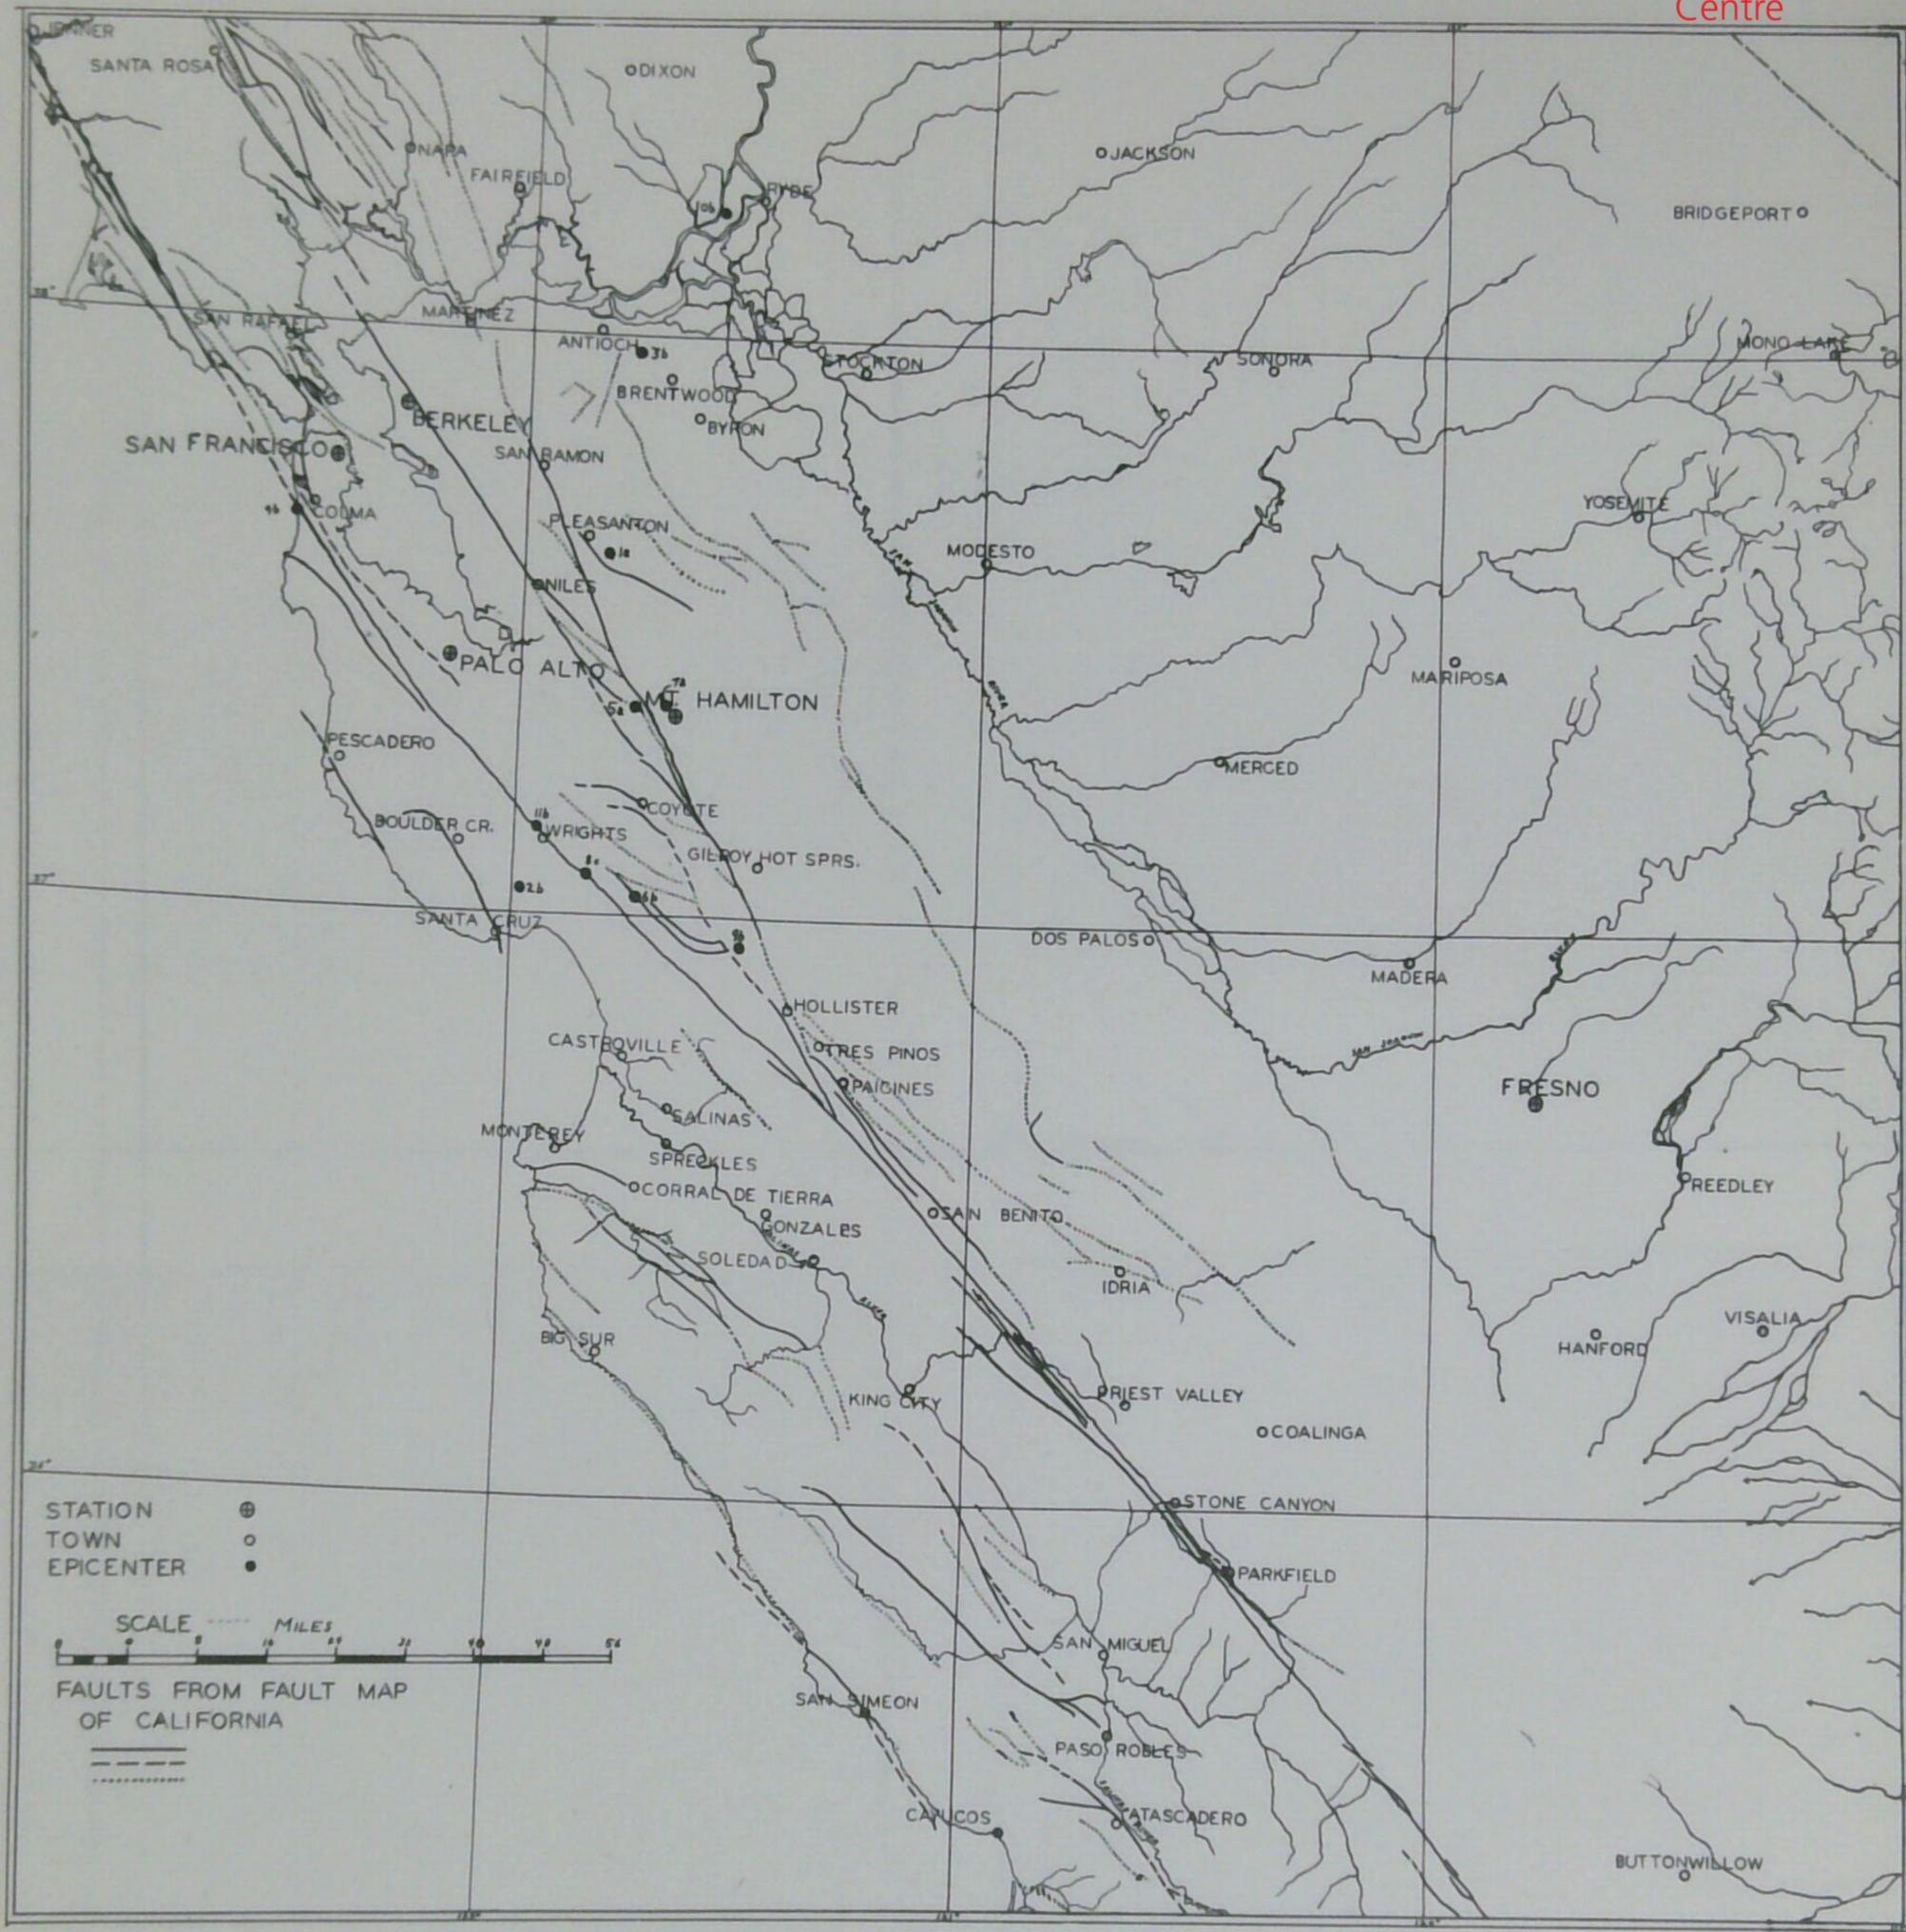

i (impetus)	Sudden beginning of the motion.
e (emersio)	Gradual beginning of the motion.
T (period)	Time of one complete oscillation.
A	Trace amplitude measured from the media line, + earth motion toward east, north, or zenith, - toward west, south or nadir.
AE	E-W component of A.
AN	N-S component of A.
AZ	Vertical component of A.

4. Time--

O (origin)	Time of shock at point of origin.
------------	-----------------------------------

SUMMARY OF THE EPICENTERS

<u>No.</u>	<u>Rating</u>	<u>Date</u>	<u>Location</u>
1	a	March 31	About 3 miles southwest of Pleasanton.
2	b	April 14	Halfway between Santa Cruz and Wrights.
3	b	April 27	About halfway between Antioch and Brentwood.
4	b	April 27	Very near Colma.
5	a	May 9	About 5 miles west of Lick Observatory.
6	b	May 27	About 7 miles west-southwest of San Martin.
7	a	May 30	Very near Lick Observatory.
8	c	June 12	About 6 miles southeast of Wrights.
9	b	June 13	About 4 miles southeast of Gilroy.
10	b	June 23	Near Ryde, about 20 miles northeast of Antioch.
11	b	June 26	Very near Wrights.

BERKELEY

THE BERKELEY STATION, UNIVERSITY OF CALIFORNIA
BERKELEY, CALIFORNIA

CONSTANTS

CONSTANTS OF THE STATION

Latitude and Longitude:

$$\phi = 37^{\circ} 52!3 \text{ N.}$$

$$\lambda = 122^{\circ} 15!6 \text{ W.}$$

Time -- All determinations are reduced to Universal Time.

Altitude -- 81 meters (266 feet) above mean sea level.

CONSTANTS OF THE SEISMOGRAPHS

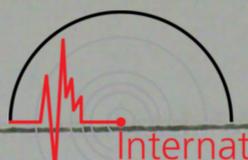

Apparatus	Component	V		T _o	ε	$\frac{r}{T_o^2}$	
		K	T				
Bosch-Omori 100 kg. ..	E	45		12	10	0.001	
	N	45		12	10	0.001	
Wiechert 80 kg.	Z	44		4	5	0.005	
Wood-Anderson	E	3000		0.9	15		
	N	3000		0.9	15		
Galitzin	E	112	12	11.8	0.00	115	11.3
	N	122	12	12.4	0.03	119	11.2
